2002

Zhejiang Huachang Chemical Co., Ltd. was founded in 2002, focusing on the R & D and production of various types of polyethylene glycol (PEG) products. With the continuous development of the company's technology and production capacity, the company's products have been widely used in various fields such as medicine, cosmetics, and food. The company has established a complete quality management system and has passed various international certifications. In 2021, the company's total revenue reached 1.2 billion yuan, with a significant increase in the sales of PEG products.

2021

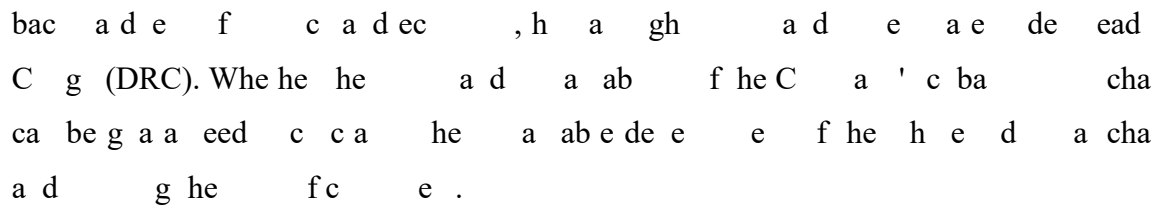

The company's main products include various types of polyethylene glycol (PEG) and their derivatives. The company has a complete production system and a strict quality management system. In 2021, the company's total revenue reached 1.2 billion yuan, with a significant increase in the sales of PEG products. The company has established a complete quality management system and has passed various international certifications. In 2021, the company's total revenue reached 1.2 billion yuan, with a significant increase in the sales of PEG products.
